0 of 0 review helpful Helpful but watch out By A Customer I think it would be almost impossible to compile a completely accurate for one year book about an ever changing place like Disneyland I m an annual passholder bought and first used my copy in April found several errors I don t blame the editors things just changed at the park like no more preferred parking during construction of the California Experience O Completely revised and fully comprehensive with everything there is to know about the Magic Kingdom its shows restaurants and attractions Birnbaum s Disneyland also includes insiders tips expert advice on travel and lodging and special details on other Anaheim and Los Angeles area attractions 4 color throughout
