county in the state of California in the United States as of the 2010 census the population was 1049025 the county seat is Martinez Early Los Angeles County Attractions (Postcard History: California):

2 of 3 review helpful LA as it should be By Gary G Being born in Georgia I cannot comment on the way things used to be in Los Angeles decades ago but after reading this book I feel like I know what it once was and in some ways weep for what it now is Nostalgia for the older generation a history lesson for the younger generation this book in both pictures and text will at the very least give you something to think about With the arrival of affordable transcontinental rail travel in the late 1880s hundreds of thousands of tourists and transplants began making the trip to Los Angeles Quickly becoming a haven for Easterners escaping cold winters and crowded cities Los Angeles and neighboring communities such as Pasadena and Santa Monica boasted a sunny Mediterranean climate and the unique situation of both nearby mountain resorts and seaside amusements The city also developed a bust! About the Author Coauthors Cory and Sarah Stargel members of the Eagle Rock Historical Society are avid collectors of early Los Angeles County postcards All of the images featured in this book were selected from their diverse collection
