2 of 3 review helpful Enter the Spa world By daniel The main reason I bought the book was for the detailed explanations on the Spa Therapies Cuisine glossary and most importantly the list of spas and their services This book is better than most in the details of spa products and rituals Only The Tropical Spa is better as it has lots of details on Balinese Spa products and lots of big colorful pictures Spa Style Asia is the authoritative guide to Asia's healing traditions and the luxury spas that practice them The book opens with Spa Therapies a study of the major healing

systems of Asia — Chinese Indian Indonesian Japanese and Thai It offers an overview of the cultural and historical backgrounds of these healing traditions details what you can expect from specific treatments and therapies and provides recipes that can be recreated at home Spa C About the Author Ginger Lee specializes in a variety of lifestyle related topics but particularly health beauty and travel Christine Zita Lim is a Singapore award winning filmmaker who now runs Pentimento Productions Singapore
